PHILIP JOSÉ FARMER'S

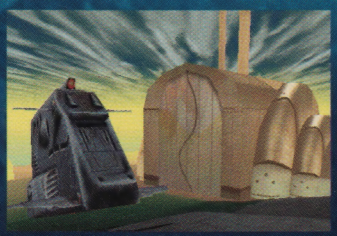
STEP INTO THE STRATEGY WITH REAL TIME 3D

Christopher Columbus, Attila the Hun, Rockfeller, Albert Einstein, General Eisenhower ...
What a management team !
They're yours to recruit and manage in a real time 3D strategy / management game that asks you to reclaim a planet while reclaiming human past, present and future.
Based on the series of classic science fiction novels by Philip José Farmer, this game challenges you to find the resources, command the people, build the structures, fight the battles and invent the tools that will advance you from the stone age to a world of super-technology.

- The first strategy and resource management game ever made
- Over 400 interactive characters
- 3 different views
- 4 levels spread over 11 technological ages, from stone age to a future technology age

- Explore dozens of territories as you find, recruit, manage, fight and use to your advantage a planet full of people with varying skills and aptitudes, including many historical figures.

- Fascinating storyline based on science fiction novels by Philip José Farmer
- Optimized for 3Dfx - Direct 3D compatible



"Riverworld: the PC gains an entirely new type of game..."
